

Patients from all over the world have traveled to Palm Beach to be treated by Board-Certified Neurosurgeon **Charles S. Theofilos, M.D.** Our expert team will coordinate transportation to and from the airport, reserve resort accommodations for any budget and schedule a V.I.P. consultation with Dr. Theofilos. Together with the doctor, you will discuss and formulate a plan of care to minimize your pain and improve your quality of life.

Founded in 1993, The Spine Center has remained at the forefront of modern neurosurgery and spinal care. The Spine Center delivers state-of-the-art treatment under the guidance of Dr. Theofilos, who is a leading provider of the most comfortable and effective surgical, minimally invasive, and non-surgical treatment options for a full range of cervical and spinal ailments, including stem cell therapy, laser therapy and artificial disc replacement. The guiding philosophy is a conservative one, where informed decisions are made in a partnership between patient and physician. The paramount goal is to provide the highest quality of life for each patient. Most of our patients do not require surgery to experience pain relief.

Our professional staff builds a personal relationship with each patient, taking the time to understand the patient's full medical history and wellness needs. Utilizing the newest emerging technologies including regenerative stem cell and laser therapies, patients receive the highest quality of care in one convenient and easily accessible Palm Beach location. For added convenience, we offer a nationally accredited state-of-the-art MRI Facility, digital x-ray suite, procedure room with minimum or full sedation, and electrodiagnostic (EMG) testing for nerve damage.

Initial Consultation

Choose from two options:

- **In-Person Consultation:** travel to Palm Beach and meet with Dr. Theofilos for a personal consultation and exam. Ideal for the person who prefers to meet with the doctors and staff in person before making any decisions.
- **Virtual Consultation:** discuss your case and review your most recent diagnostic tests via video chat with Dr. Theofilos. Ideal for the out-of-town patient who wants to receive a consultation from the comfort of home in order to determine the next course of action.

Scheduling

All travel arrangements will be handled effortlessly by our personal global concierge. Your personal patient liaison will guide you through the office scheduling process. Your first appointment should take about two to three hours. If surgery is necessary, the operation is usually performed at Jupiter Medical Center, a state-of-the-art hospital with a top notch orthopedic and spine floor, conveniently located minutes away from the office. You will have a private room, enjoy concierge services and we will make sure that the whole family feels comfortable.

Recovery

Patients will stay and recover at one of many beautiful, five star resorts in Palm Beach, Florida. Our team will schedule follow ups and continue contact remotely thereafter. In addition, the doctor will be available in person or via video or teleconference to discuss your future care. Our team will develop a customized post-procedure wellness plan suited to your particular situation and support you along the way to living a healthier, more pain-free life.
